Dear Holger,

I am happy with the changes. Thanks for the collaboration.

Regards,

\_\_Mario

Subject: Re: Countered: If needed: TD-CSTS MOIMS PID - WG responses II

Dear Mario,

Please find attached the TD-CSTS incorporating the all changes as agreed. The only exception is your comment [2] about the 'Sequence of TDM Atomic Segments' used for the example. Since actually the current example stems back from one of Peter's comments, we suggest to create a RID out of your comment handled at agency review. We share your view that the example is now unnecessary complex.

Can you send an email to us, stating that the TD-CSTS fulfills your MOIMS AD conditions (I hope to get the wording right) and can go to agency review?

Thanks for you cooperation,  
Holger

---

Hi Holger,

In general the changes are OK. Please have a look at my suggestions. I proposed 14:00 for our meeting. I guess 30m will be sufficient.

Regards,

\_\_Mario

## Countered: If needed: TD-CSTS MOIMS PID - WG responses II

**Tue 22/08/2017 13:30 - 14:30**

Attendance is for Mario Merri

Chair: **Holger Dreihahn/esoc/ESA**

Location:

Your office

You have proposed changes to this meeting invitation.

Proposed Time:

Tue 22/08/2017 14:0014:30

Original Time:

Tue 22/08/2017 13:3014:30

Required:

Mario Merri/esoc/ESA@ESA

### Description

Hi Mario,

Pl. have a look at the changes in the attached document, which hopefully address your PIDs.

It would be great if you could agree to the changes (changes are tracked), just let me know. If needed we can go through together.

Kind regards,

Holger
