

CSS-R-2020-04-001, *Resolution concerning technical corrigendum for CCSDS 921.2-M-1 Guidelines for the Specification of Cross Support Transfer Services*

The CSS Area,

CONSIDERING that

- a) CCSDS 921.2-M-1 Guidelines for the Specification of Cross Support Transfer Services, is a published CCSDS recommendation providing normative best practice guidance with respect to specifying Cross Support Transfer Services
- b) a lack of specificity for relating a particular version of a CSTS recommendation to one and only one version of the CSTS Framework needs to be corrected

and RECONGINZING that the minor but technically important corrections have been satisfactorily made;

RESOLVES to request, respectfully, that the CCSDS Secretariat

- a) prepare the necessary corrigendum in conformance with the corrections indicated
- b) initiate polling to formally publish the corrigendum for CCSDS 921.2-M-1 Guidelines for the Specification of Cross Support Transfer Services.

[End Resolution]
