

CMC Chair Report

Sami Asmar

Tokyo

30 May – 1 June, 2023

CESG Huntsville May 2023

Chair Perspective on Status of CCSDS p.1

- **Relationship with ISO**

- Still enjoying out restored Class A Liaison status with acceptable modifications to documentation details.
- SANA official registrar for all CCSDS parameters (Committee 20, Sub-Com. 14)

- **Adding reports from ISO SC 13 & 14**

- Will increase collaboration and mutual reporting

- **IOAG Collaboration**

- Liaison role now led to participation as a moderator in IoP.
- ***One topic area is accelerating CCSDS production of standards***
- Joint CCSDS/IOAG cybersecurity working group (Shames/Fisher)

- **Possible addition of other agencies**

- S. Korea's expressed interest then was quiet again; possible change in personnel
- Other agencies with active technical research program to invite? **ISRO, SANSa, UAE, UMETSAT, etc.**

Chair Perspective on Status of CCSDS p.2

- **Succession Planning**
 - Welcome Hiroshi Takeuchi as JAXA delegate
- **NASA-internal possible changes at NASA Data Standards Level**
- **40th Anniversary**
 - IAC and Space Ops conference papers jointly with IOAG
 - Plans to produce material for public consumption
 - Developers' Forum
- **Future Meetings**
 - The Hague, Oct-Nov 2023
 - USA (city TBD) for technical meetings, May 2024
 - Possible CMC meeting in Brazil June 2024
 - Europe (TBD) Oct-Nov 2024
