JHUAPL Conference Wi-Fi instructions

1. Connect to **JHUAPL-Visitor** wireless network

   o Enter the WPA2PSK Key/Passphrase: **VisitAPL** when prompted
     - **NOTE: Device showing "No Internet Connection" is normal**

2. Launch your browser and enter **signin.jhuapl.edu** (you might need to try different browsers, we recommend Microsoft Edge, Firefox, Chrome or Safari)

   - Agree to the JHUAPL Acceptable Use Policy
   - You should be redirected to our Login Portal
   - Some browsers may alert about a portal certificate mismatch. Allow the browser to proceed

3. Choose the visitor/guest login and enter these credentials.

   - **Conference: CCSDS**
   - **Password: 062025**

4. Please enter your email address when prompted. Your settings will be reconfigured to allow access

   - **Guest Email address: <Enter your email address>**
   - Your device will be redirected to the JHUAPL Website
   - Enter your desired web site or launch your VPN

5. Troubleshooting tips

   - Ensure VPN systems are not attempting to connect while attempting to register
   - If after registering you cannot reach your desired website relaunch your browser.
   - Custom DNS, such as Google 8.8.8.8, Cloudflare 1.1.1.1, OpenDNS will break the registration process
   - JHUAPL's registration website certificate may need to be manually trusted
