Fri day 14.00 - 15.00 PM 15.00 - 16.00	MOIMS Plenary MOIMS Management	

Potential issues –

- Agency reports could run over – need agency estimates
- Expect use cases to have highlighted issues with current DAI approach
- Expect CNES will have further proposal based on issues
- Can Claude participate in a Thursday morning session?
- May need a joint session with Information Architecture to review their white book
- We need inputs from agency IPR prototypes and testbeds for a productive IPR schema update sessions
