Documentation of dataObjectType	Mathias Moucha May 18, 2006

Discrepancy/violated requirement :

The documentation of the dataObjectType (in the normative XFDU schema and so in fragments) does not deals about the new checksum element, but about the old checksum attribute. Attribute repID is missing.
In the 8.2 section, there are two identical fragments for dataObjectType.

Suggested solution :

The documentation should be updated.
Remove one of the dataObjectType fragment.
