Notes	Action
1. Action Items Status	
<ul style="list-style-type: none"> In order to allocate more time to discussion and resolution of CDM P1.0.1 review comments, the Action Items from the Spring 2021 Meetings were not reviewed. David requested that Action Item assignees email completion dates or new target dates as applicable. 	To All: Work action items as applicable, and report status.
2. Featured Document	
<ul style="list-style-type: none"> Discussion of the P1.0.1 review comments was the focus of this entire telecon. Brian and Dan have commenced the document changes to incorporate commentary. At the start of the telecon, 10 of 47 pages had been resolved. At the end, 17 of 47 pages had been resolved. Continuing this resolution of comments will likely be the focus of a few more telecons prior to the Fall Meetings. Brian noted that the items in the CRM already colored "Green" (i.e., "resolved") have been incorporated into the CDM P1.0.2 draft. In a couple of notable discussions: (a) the WG agreed that "n/a" in the tables for dimensionless quantities was preferable based on consistency with past practice instead of the official ISO standard of "1" as the unit (note that "1" works in units algebra, but could be confusing if shown as a unit in the tables), (b) placement of the "CLASSIFICATION" keyword in the CDM. 	To Brian and Dan: Continue processing CRM from CDM P1.0.1, factoring them into CDM P1.0.2 draft.
3. Document Status	
<ul style="list-style-type: none"> In order to allocate more time to discussion and resolution of CDM P1.0.1 review comments, the status of each document in progress was not reviewed. Status in the below is based on emails and other advisories as to progress Documents are sorted below in alphabetical order. Action item target dates appear in the Action Items list. 	To David: Report document status to Mario and Marc.
a) ADM: Internal technical review of P1.11 draft is effectively complete, subject to decision of Alain and Julie.	To Alain and Julie: Decide whether or not more time should be allocated to P1.11 review, or to close the review and start work dispositioning them for P1.12.
b) CDM: See status on agenda item #2 above.	See action items on agenda item #2 above.
