CCSDS Navigation WG Telecon22-Jan-2025

Attendees: David Berry, Frank Dreger, Julie Halverson, Kiyoshi Hamada, Ralph Kahle, Alain Lamy, Jose Miguel Lozano, Dan Oltrogge, Dianne Poster, Brian Swinburne, Patrick Zimmerman

Notes		Action
1.	Document Status	
•	The status of selected documents in progress was reviewed. Documents are sorted below in alphabetical order.	To David: Report "simple" doc status to MOIMS AD.
•	ADM: Not discussed in this meeting	None
•	CDM P-1.2: Brian reported that the CDM P-1.2 draft has been distributed, as well as CDM Test Plan (with extensive revision since earlier draft). David stated that he had not yet reviewed the Test Plan. The CDM is one of the top priorities for the group at this time.	To David: Review draft Test Plan, complete XML Schemas.
•	FDM: Vitali was not able to attend the meeting, so there was no progress report.	To Vitali: Continue work on FDM draft.
•	LDM: Dan indicated that there was no recent progress on the LDM due to several other commitments and the fact there is a dependency on the as yet not-well-defined NCM.	To David: NCM White Book 1.0
•	Navigation Data - Definitions and Conventions (NDDC): Julie reported that she has made some progress on the Green Book transition but not enough yet to pass anything to SANA. She will continue working on it.	To Julie: Continue transition work.
•	Navigation Data Messages Overview (NDMO): Not discussed in this meeting.	None
•	NCM (Navigation Composite Message): No direct discussion in this meeting only in conjunction with TraCSS meeting.	To David: Produce NCM White Book 1.0
•	NDM/XML 4.0 Specification: Agency Review completed 15- Jul-2024. David has been working on post-Agency Review RID applications and preparing the Test Report. Progress has been slowed by changes in the CWE that affect the document, as well as an error David discovered in the URLs for the schemas that has been reported to the SANA Team.	To David: process RIDs, complete testing and Test Report, submit to Area Director.
•	NEM: Frank provided a nice discussion of the progress made with the NEM XML file, attributes with events, and 3 tools (validate dictionary, generate docs, validate message). The dictionary is well-formed, and can be used to generate an HTML message. Frank said that the next step is to generate a schema from the dictionary to validate an instance. We also discussed Frank's question about XML 1.1 as opposed to XML 1.0, and determined that XML 1.0 was the best choice at this time.	To Alain & Frank: Continue fleshing out NEM White Book.

Notes		Action
•	ODM: Not discussed directly in this meeting, but was	None
	peripherally referred to in the NCM discussion.	
•	PRM: Not discussed in this meeting.	None
•	RDM: David reminded that we have a pending "Reconfirm?,	To Ralph: Determine if
	Retire?, Revise?" 5-Year Review decision to make, but suggested	DLR desires any changes
	his sense that "Reconfirm" is the right decision. Ralph and Vitali	in the RDM.
	were asked to check with their respective organizations to see if	To Vitale: Determine if
	there are any desired changes to the RDM so we can complete this	ESA/ESOC desires any
	decision process at the next telecon.	changes in the RDM.
		Others: If using RDM,
		determine if any changes
		are desired.
•	SANA: David reported the issue with the XML schemas	To David: Report issue to
	(specifically, in all of the Nav WG standards that have XML	SANA (complete).
	implementations, the URL contains a string " $/r/$ " that has been	
	replaced by "/files/" in the schema directory, so nothing validates.	
•	TDM: Juan and Cheryl were not able to attend the meeting, so	To Juan: Continue work on P-2.0.3 based on
	there was no progress report.	internal review of 2.0.2
	Two CSSs Discuss reported on the good meeting held the miss	None
•	TraCSS: Dianne reported on the good meeting held the prior week with Dan, David, and Jim Woodburn regarding the use of	INOILE
	NavSol for GNSS data. Dan also provided a brief presentation on	
	1 1	
1	the NCM.
