Prepare minutes and report to CCSDS management

Note: Most members were unable to travel to the MOIMS-DAI meetings at Cleveland. Therefore the MOMS-DAI meeting have been cancelled. This meeting was set up to take advantage of several members being available at the same place and time so the MOIMS-DAI WG can still make progress on their projects. All MOIMS-DAI WG members are welcome to attend. Please inform the mailing list if you expect to attend.

The majority of the meeting will take place at US National Archives and Records Administration Archives II Building in College Park, MD. The meeting with Vint Cerf and his presentation will be held on NASA's Goddard Space Flight Center (GSFC) base. Access to NASA/GSFC will require that the participant be badged. It is now too late to get new approval for foreign nationals. US participants should let us know if you require access approval for the NASA portion of this meeting.
